BUSINESS OPERATIONS | DIGITAL TRANSFORMATION & SYSTEMS IMPLEMENTATION

PROFESSIONAL PROFILE

Operations and business systems professional with a track record of modernizing manual processes, selecting cost-effective technologies, and building scalable workflows. Led a companywide transition from paper records to integrated multichannel operations, supporting annual revenue growth from approximately $300K to more than $4M while adding only two employees. Now independently design and deploy Microsoft Power Platform business applications and cross-department collaboration solutions.

CORE COMPETENCIES

Digital Transformation • Business Process Improvement • Technology Evaluation & Purchasing • Systems Implementation • Inventory Management • Warehouse Operations • RF/QR Scanning • Multichannel E-Commerce • Power Apps • Power Automate • SharePoint • Excel Forecasting • Team Leadership

PROFESSIONAL EXPERIENCE

Data Merchandise Lead | Leftbank Art | La Mirada, CA | Jun 2024–Present

- Independently identify operational challenges and own custom business application delivery from concept, requirements, and data design through development, testing, and deployment.
- Built Power Apps and Power Automate solutions for product onboarding, design review, data changes, marketing workflows, and sample requests; implement SharePoint data structures, validations, permissions, and approval workflows.
- Integrating applications into Microsoft Teams and automating Teams notifications to replace fragmented email-based coordination and improve cross-department visibility.
- Develop advanced Excel and Power Query solutions for merchandise data cleansing, transformation, reporting, and analysis; work with Sage 100 ERP-related data and processes.
- Lead technical and analytical merchandise data operations and supervise one employee; developing SKU generation and R&D product development applications.

Associate Operations Processor | AppleOne (Lockbox Department) | El Monte, CA | Aug 2023–Mar 2024

- Processed high-volume mail and sensitive documents with attention to accuracy, security procedures, and USPS requirements.

In-Home Caregiver | Private Family Care | El Monte, CA | Aug 2021–Jan 2023

- Coordinated care responsibilities, appointments, and medication schedules for a family member.

Operations Supervisor | Amlong Inc. | Walnut, CA | Jul 2013–Sep 2021

- Joined as the first employee and led transformation from handwritten, paper-based processes to integrated digital operations; independently selected and purchased cost-effective technology, reporting directly to the owner.
- Built scalable operational infrastructure supporting growth from approximately $300K to over $4M in annual revenue with only two additional employees.
- Integrated order, inventory, and shipping workflows across Amazon, eBay, Walmart, and the company website; introduced ShipStation and monitored inventory in Amazon fulfillment facilities.
- Introduced RF and QR scanning for warehouse organization and inventory tracking; established inventory controls and streamlined fulfillment processes.
- Built Excel tools for inventory analysis and sales projections; directed warehouse operations, shipping, and employee training.

Operations Supervisor | Linen N Chair Covers | Duarte, CA | Jun 1999–May 2014

- Supervised warehouse, shipping, and customer service operations; maintained an Access-based order entry system and company website.
- Implemented cycle-count inventory practices and supported e-commerce content and product photography.
